PROFESSIONAL SUMMARY

Detail-oriented Front-End Developer with a passion for building intuitive, responsive, and mobile-first web applications. Proficient in translating Figma designs into pixel-perfect, production-ready React components using Next.js, TypeScript, and Tailwind CSS. A collaborative team player with experience in Agile methodologies and leveraging AI to improve development workflows. Eager to apply strong problem-solving skills to a mission-driven team dedicated to making mental healthcare more accessible.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, C#

Frontend: React, Next.js, Tailwind CSS, HTML, CSS, Shadcn UI

Backend: Node.js, REST APIs, PostgreSQL, MongoDB, Drizzle ORM, Supabase, Firebase

Mobile: React Native, Expo

Tools: Git, GitHub, Figma, Vercel, Azure, Socket.io, Redis, AI Tools

Practices: Agile, Mobile-First Design, Code Reviews, CI/CD, SDLC

SOFT SKILLS

- Collaboration & Communication
- Adaptability & Problem-Solving
- Attention to Detail
- Proactive & Results-Oriented
- Project Management
- Continuous Learning

EDUCATION

Software Development

Southern Alberta Institute of Technology (SAIT) – GPA: 3.98 / 4.0

Full-stack development, mobile applications, and UI/UX design

WORK EXPERIENCE

Volunteer Software Developer – Destination History, Calgary

Jan 2025 – Present

- Collaborated in a team to architect and develop a mobile application for educational tourism using React Native.
- Developed responsive UI components and implemented AI-powered features to deliver a personalized user experience.
- Gained experience with cloud deployment by deploying application modules to Azure, ensuring a scalable infrastructure.

Freelance Web Developer – Hawk Eye Car Detailing, Calgary

May 2025 – Present

- Engineered and launched a fully responsive, mobile-first website from scratch using Next.js and Tailwind CSS, directly aligning with modern front-end best practices.

- Translated client requirements into a pixel-perfect, user-friendly interface to enhance online presence and customer engagement.
- Developed a library of reusable React components, improving development efficiency and ensuring design consistency.

Software Developer Intern – CodSoft

May 2024 – July 2024

- Contributed to the front-end architecture of a full-scale React application, building key user-facing features with Next.js and TypeScript.
- Actively participated in an Agile development environment, contributing to sprint planning, code reviews, and daily stand-ups.
- Collaborated with senior developers and QA to ensure the delivery of high-quality, well-tested code.

Supervisor – Wine and Beyond, Airdrie

Jan 2024 – Present

- Managed daily team operations in a fast-paced retail environment, demonstrating strong project management and communication skills.
- Led team coordination and training efforts, fostering a collaborative and supportive work atmosphere.

PROJECTS

Note-Taking App – [GitHub](#) [Website](#)

Tech Stack: *Next.js, TypeScript, Tailwind CSS, Socket.io, PostgreSQL, Drizzle ORM, Supabase, Vercel*

- Developed a full-stack, real-time note-taking application using Next.js, TypeScript, and Tailwind CSS.
- Implemented real-time data synchronization using Socket.io and managed the PostgreSQL database with Drizzle ORM.

Music Mobile App (BeatFlow) – [GitHub](#) [Figma](#)

Tech Stack: *React Native, TypeScript, Expo, Firebase, MongoDB, Deezer API*

- Built a cross-platform mobile music application using React Native and TypeScript, integrating the Deezer API for music streaming.
- Implemented Firebase Authentication for user management and MongoDB for storing user data like playlists.

Sustainable (Design Project) – [Figma](#)

Tech Stack: *Figma*

- Designed a high-fidelity, user-centered prototype for a mobile application using Figma, focusing on a clean and modern UI/UX.
- Demonstrated a meticulous eye for detail by translating conceptual ideas into pixel-perfect user flows and interactive screens.

Car Rental Web App – [Website](#)

Tech Stack: *React.js, JavaScript ES6+, Shadcn UI, Tailwind CSS, HTML5, Vercel*

- Developed a fully responsive, mobile-first car rental web application using React.js and Shadcn UI.
- Implemented dynamic search and filtering functionalities to create a seamless and intuitive booking experience for users.
