PROFESSIONAL SUMMARY

Frontend-focused Software Developer with experience in designing, developing, and deploying intuitive and performant user interfaces using React, Next.js, and TypeScript. Proficient in the entire web development lifecycle, from UI/UX design in Figma to seamless backend API integration. Passionate about applying web performance optimization, responsive design principles, and a collaborative mindset to build scalable, user-centric applications in a fast-paced startup environment.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, HTML5, CSS3
Frontend: React, Next.js, Tailwind CSS, React Native
Backend: RESTful APIs, Node.js, MongoDB, PostgreSQL
Mobile: React Native, Expo
Tools: Git, GitHub, Vercel, Figma, Jest, Cypress
Practices: Responsive Design, UI/UX Best Practices, Web Performance Optimization, Agile/Scrum Methodologies, Full-Stack Development, CI/CD

SOFT SKILLS

- Collaboration & Communication
- Problem-Solving & Analytical Thinking
- Keen Eye for UI/UX Design
- Adaptability & Enthusiasm
- User-Centric Mindset
- End-to-End Project Ownership

EDUCATION

Software Development
Southern Alberta Institute of Technology (SAIT) – GPA: 3.98 / 4.0
Full-stack development, mobile applications, and UI/UX design

WORK EXPERIENCE

Volunteer Software Developer – Destination History, Calgary

Jan 2025 – Present
- Collaborated with the founding team to implement and test responsive, user-facing features using React and TypeScript, directly contributing to the user interface.
- Advocated for UI/UX best practices through proactive participation in code reviews and implementing unit and E2E tests with Jest and Cypress.
- Contributed to frontend architecture decisions and supported CI/CD processes with Vercel to ensure seamless deployment and platform stability.

Freelance Web Developer – Hawk Eye Car Detailing, Calgary

May 2025 – Present
- Managed the entire web development process from design and development to deployment for a full-stack e-commerce application.

- Designed and developed an intuitive, responsive user interface with React and Tailwind CSS, incorporating client feedback to continuously refine the user experience.
- Integrated the frontend seamlessly with backend RESTful APIs to ensure robust data flow and optimal application performance.

Software Developer Intern – CodSoft
May 2024 – July 2024
- Developed, tested, and debugged reusable UI components in a fast-paced Agile environment, improving frontend code maintainability.
- Applied a strong problem-solving aptitude to troubleshoot frontend issues, enhancing application stability and user experience.
- Collaborated closely with backend developers to ensure seamless API integration and maintained clear documentation for frontend features.

Supervisor – Wine and Beyond, Airdrie
Jan 2024 – Present
- Utilized strong communication and problem-solving skills to lead team workflows and resolve challenges in a dynamic, high-volume setting.
- Fostered a collaborative team environment, effectively prioritizing tasks to consistently meet and exceed performance objectives.

PROJECTS

Note-Taking App – [GitHub](#) [Website](#)
Tech Stack: *Next.js, TypeScript, Node.js, PostgreSQL, Drizzle ORM, Supabase*
- Developed a full-stack application featuring a performant and responsive frontend built with Next.js and TypeScript, deployed on Vercel.
- Designed and integrated RESTful APIs to connect the user interface with a PostgreSQL backend, ensuring efficient state management and data persistence.

Music Mobile App (BeatFlow) – [GitHub](#) [Figma](#)
Tech Stack: *React Native, TypeScript, Expo, Firebase, MongoDB, Deezer API*
- Engineered a cross-platform mobile app with React Native, demonstrating deep expertise within the React ecosystem and responsive design principles.
- Integrated a third-party Deezer RESTful API and managed a MongoDB database to deliver dynamic content and a seamless user experience.

Sustainable (Design Project) – [Figma](#)
Tech Stack: *Figma*
- Designed a high-fidelity, user-centered prototype in Figma, demonstrating a keen eye for user experience and intuitive UI design.
- Translated complex functional requirements into clean, interactive, and responsive visual flows, prioritizing usability at every step.

Car Rental Web App – [Website](#)
Tech Stack: *React.js, JavaScript, Tailwind CSS, HTML5, Vercel*
- Built a responsive single-page application using React.js and Tailwind CSS, focusing on web performance optimization for a fluid user experience.
- Implemented complex client-side logic and state management to create a robust and interactive interface, demonstrating strong problem-solving skills.
